## Finance Minister Fleming Addresses Meeting

Western farmers are already reaping the benefits of the government's action in pegging the dollar, according to Finance Minister Donald Fleming.

The devaluation of the dollar, he said, has already resulted in an increase in "prices fetched" for Canadian wheat sold abroad.

"And already most heads of farm organizations have favorably acclaimed the government action."

The minister of finance was speaking to about 200 members of the Macleod constituency at a rally in Blairmore on Thursday evening, May 24.

Mr. Fleming also denied recent statements made that citrus fruits and other products would be increased in price to any great extent because of the pegging of the dollar.

"The reason we are paying more for citrus fruits is because storms in the U. S. destroyed the crops and even the Americans are paying more for their fruit."

Canada imports most of its citrus fruits.

"Surely they are not going to blame us for producing storms in the United States," he said.

As far as any other products are concerned, the increase, if any, will be about one thirty-eighth of the cost of the imports, he said.

The "gloomy gentlemen" (Liberals) are trying to make a big deal of this, he commented, but their efforts are a complete hoax. The Liberals not long ago at a Dominion rally stressed that the devaluation of the dollar was vital to the economic advancement of the country.

"Now they are refuting themselves and are trying to falsify the records."

Mr. Fleming said the Liberals are making a "great to-do" about the devaluation but the people must weigh the evidence.

"The results of the devaluation are a possible one thirty-eighth increase in price of imports compared to the resulting value of expanding opportunities, increasing exports, creating jobs and other benefits," he said.

## Old Age Pensioners Regular Meeting

The regular meeting of the Old Age Pensioners was held in the Elks hall on June 4th with a very good attendance.

After the meeting a musical program was given by the following: Mrs. Florence Dunford and Miss Judy Coover, vocal duets; Ken Murdoch, piano solo; April Ingram, vocal solo; Eddie Cornett, Roy Colwell and Melvin Kropinak, instrumental selections; La Cuschorochi and Mary Lou, polka and Lorraine Petsuk, pianoforte solo, which was enjoyed by all.

Mr. John Wavrecan showed pictures of the Pipeline which were very interesting, we sincerely thank Mr. Wavrecan for the interest he has shown in our organization and would appreciate more of his kind.

A good time is expected at the Rally to be held in Water on July 11 and we are looking forward to an interesting convention to be held in Coleman on Aug. 8th. The Miners hall will be used for the meetings, banquet and lunch to be served in the Elks hall.

A number of members from Hillcrest Association were in attendance at the meeting.

Mr. John Burns celebrated his 92nd birthday.

Mrs. Joseph and Mr. Hamner were missed as they are patients in the hospital, we wish them a speedy recovery.

To achieve success one must make an attempt.

"We now have a 100-cent dollar compared to a dollar that was worth 60 cents in purchasing power when the Liberals were in office in 1956."

The finance minister said the government had to peg the dollar according to international monetary fund regulations — the only question was when and how much.

By pegging the dollar, Mr. Fleming said, Canada will gain stability in its economic system. It will be a benefit to Canadian business, especially to the tourist trade.

Mr. Fleming attacked another one of the main Liberal criticisms of the present government — the year deficit spending.

The Liberals have been making a big fuss over what we have been spending, he said. But one of the proposals they make in their election campaign is to add another billion dollars a year to the overall budget for their own proposed projects.

He reiterated the Conservative reasons for deficit spending as increased aid to the provinces each year, increases in Old Age Pensions and other benefits.

"If we had not increased aid we would have recorded an accumulative surplus of \$400,000,000 in the past five years," he said.

The Liberals don't dare tell the reasons behind the deficit spending, he said.

Mr. Fleming stressed the government's action in developing natural resources and other records of the government.

"The government stands on its record — the greatest record of any political party in Canada's history," he said.

He predicted a Conservative win in the June 18 election and discredited any national party claims by Social Crediters or the New Democratic Party.

The NDP doesn't stand for anything new and they are not democratic, he concluded.

(Courtesy Lethbridge Herald)

## "Terry" Mraz Attacked and Stabbed

A Coleman girl was reported in good condition in Taber Hospital Tuesday morning, May 29, suffering from a stab wound received early Sunday.

Teresa Mraz, a 22-year-old nurse who has been working at the Taber Hospital for three months, suffered a chest wound inflicted by an as-yet-unknown party.

Taber police are investigating the incident. No further details are available.

Miss Mraz's parents, Mr. and Mrs. Steve Mraz are in Taber with their daughter.

## Celebrates 92nd Birthday

Mr. John Burns celebrated his 92nd birthday on June 4. The Senior Citizens Association honored him at their meeting with a birthday cake which was enjoyed by all. The Journal joins in wishing him Many Happy Returns of the Day.

## Return From Edmonton

Mr. and Mrs. Dominick Oliva have recently returned from Edmonton following a two-week visit with their sons and daughters-in-law, Mr. and Mrs. Sam Oliva and Mr. and Mrs. Frank Oliva.

While in Edmonton Mr. and Mrs. D. Oliva attended the University of Alberta convocation ceremonies at which time their son Frank was awarded the Master of Education degree.

Presently Mr. Frank Oliva is a school principal with the Edmonton school system.

His wife is executive director of the Edmonton branch of the Canadian Mental Health Association.

Pictured above, left to right, are Ernie Patterson, Federal Social Credit candidate, Macleod Constituency; William Kovach, M.L.A., of Hillcrest, and Premier E. C. Manning, discussing campaign plans

at a Social Credit meeting held in Coleman recently. The meeting was attended by some 300 persons and marked the first in a series of campaign meetings to be addressed by the Premier.

## Walter Badzioch Saves Coleman Child From Drowning

"Lady Luck" smiled on an 18-month-old Coleman girl Wednesday afternoon, May 30, when the child was safely pulled out of Crows Nest River by an unemployed miner, who answered the child's young brother's frantic calls for help.

Walter Badzioch, a 65-year-old Coleman miner, was sitting in his yard talking to a friend, Joe "Machine-gun" Moscanica, a Coleman trucker.

Mrs. Mary Badzioch, also in the yard, heard a child calling near the Crows Nest River, about 100 feet from the Badzioch home. Mrs. Badzioch told her husband to go and see what was the matter, and Walter, thinking it was just some children playing, was not going to go, but on second thought went to see why the child was screaming.

Looking over the bank Mr. Badzioch saw a little boy, two and a half year old Grant Jackson standing on a rock near the water and calling, his sister, 18-month-old Lorraine, was in the river.

Sensing the need for quick action Mr. Badzioch, now accompanied by Mr. Moscanica, ran down the bank of the swollen river and saw what appeared to be a doll floating down the middle of the river, face up. Running downstream, along the side of the 40-foot-wide river, the two men in a combined effort were able to get hold of the child and remove her from the water.

The child, unconscious, was carried up the bank and Mr. Badzioch, not an expert at artificial respiration, was for a split second at a loss on what to do, but having seen mouth-to-mouth respiration on television, he felt there was nothing to lose, so he applied mouth-to-mouth respiration to the child and after a short while the child responded and opened her eyes to look into the kind eyes of Mr. Badzioch, who then began moving the little girl's arms to free her lungs of the remaining water. Mr. Badzioch, soaking wet, accompanied by Mr. Moscanica, with Grant, took the little child home to her parents, Sydney and Donna Jackson who were overjoyed at the rescue of their daughter.

Mrs. Jackson stated that the children had been home less than five minutes before and had been allowed into the yard when Grant wanted to take his little sister to see a horse in the back alley.

In less than five minutes the children had wandered to the Crows Nest River just a very short distance from their home and were not missed by their mother in such a short space of time.

Mr. Badzioch stated that he was very grateful that he had listened to his wife and went to investigate the child's screaming. Although stiff and suffering from a cold as the result of plunging into the icy water, he is just plain happy he was able to save the girl.

Mr. Badzioch has not worked since last October when he was laid off and then he spent three months in hospital.

Mr. Moscanica, a smiling coal truck driver, was just happy about the child being saved and in a statement he said, "Boy, when I saw Walter flounder in the water, I said, well, there will be two of them."

The Crows Nest River at this point in East Coleman runs in a straight course, and is quite swift and about four and a half feet deep being swollen by spring runoff.

The river in this area is riprapped with large Frank Slide boulders which, though they serve the purpose of preventing high water from washing banks away in the spring-time, also provide precarious perches for little children who, although they should not be near the river, manage to sneak away once in a while and seem to be attracted to them.

## Local Witnesses To Attend Convention

Mr. W. L. Krish, presiding minister of the local congregation of Jehovah's Witnesses, announced recently that the Coleman congregation of Jehovah's Witnesses will be attending a three-day semi-annual circuit assembly to be held at the High School Auditorium at Fort Macleod, Alberta, June 8-10.

Mr. Krish will head the local delegation of about 20 persons.

Upwards of 350 to 400 are expected to attend the convention, which takes in congregations in Southern Alberta, from Taber to Coleman.

The theme of the Assembly is: "Faithfully Increasing Our Praise to Jehovah." (Epr. 5:16).

Mr. Krish reports that the final public address to be given at 3:00 p.m. Sunday, June 10, by Mr. Clare Statton, a district supervisor from Toronto, Ont., will be of interest to all, being entitled: "Who Will Rule the World?"

## Mrs. H. Neddo New President Home and School

The Coleman Home and School Association held its regular meeting last week when a new slate of officers for the coming term were installed to office by school principal, Horace Allen.

To head the group are president, Helen Neddo; treasurer, Lorraine Aiello; recording secretary, Mary Atkinson; and corresponding secretary, Emily Misura.

President of the Crows Nest Pass branch of the Cancer Society, Mrs. Helen Neddo was present and presented the poster contest winners with their awards.

Winners were Lanny Oliva, first for the grade eleven group; Wayne Hayashi, second for the seven to eight group; and Ralphina Deluca, third for the grade nine to ten group.

Prior to lunch being served a variety concert of local talent was enjoyed.

## TB X-RAY UNIT TO VISIT COLEMAN SHORTLY

The Coleman Order of the Royal Purple Lodge has announced the mobile TB Chest X-ray unit will visit Coleman community in the near future. The location of the unit and time it will visit will be announced as soon as the pre-registration of each family is completed.

The cost of staffing and operating the Mobile X-ray Units is borne equally by the provincial government and the Alberta Tuberculosis Association. The X-ray equipment and vehicles are supplied by the Alberta Tuberculosis Association, out of the proceeds from the sale of Christmas Seals.

Mr. C. B. Pugh, director of X-ray Surveys, Alberta Tuberculosis Association, is in the district at present making preliminary arrangements for the mass Chest X-ray survey.

A house-to-house canvass will be conducted to register every family in Coleman and community.

All persons four years of age and up will be included in this registration, except school children who

will have their chest X-ray as a group.

In charge of the program are Mrs. Edith Nelson, general chairman; Mrs. Mildred Zak, advance registration chairman; Mrs. M. Cornett, clinic appointment chairman; Mrs. B. Bond, publicity chairman, and Volunteer Help Chairman, Mrs. G. Taggart.

The area to be covered in the survey will be the town of Coleman proper, including Carbondale, Willow Drive, Sentinel, Grafton Town and East Coleman.

All are strongly urged to take advantage of this excellent service in order to safeguard oneself and family.

Do not fail to attend the Clinic.

## Jim Montalbetti Selected for Trip To Drama Festival

Jim Montalbetti, 15-year-old son of Mr. and Mrs. James Montalbetti of Coleman, is making a great name for himself in the musical field, and this month was selected by the Department of Education at Edmonton, on behalf of the Canada Council, to be a guest of the Stratford Drama Festival, from July 31 to August 4.

Born in Blairmore, Jerry is a grade eleven honors student at the Coleman high school. Last year he was awarded the Governor-General's Medal for the Pincher Creek inspectorate for high marks in grade nine.

Well known all over Southern Alberta for his excellent musical ability, Jim has won silver medals for outstanding marks in piano and violin examinations, held by the Western Board of Music.

A consistent winner in both the Lethbridge and Crows Nest Pass Music Festivals, Jimmy has his grade seven in violin and a grade eight standing in piano. To further his musical studies, he will, this summer, attend a Workshop on violin at Banff, which is being sponsored by the recreational and cultural development branch of the province of Alberta.

Besides his scholastic and musical accomplishments, Jimmy also finds time to take an active interest in sports such as curling, football and baseball, and has also achieved the honor of being a First Class Scout and in this capacity attended the National Scout Jamboree at Ottawa last July.

## Liberal Candidate To Hold Meetings In The Pass

Jim Coutts has scheduled a series of public meetings in various parts of the Macleod riding for the end of this month and the beginning of next.

They opened at Claresholm Monday night, and will close on June 16 with a meeting in Nanton which is the home-town of the Macleod Liberal candidate.

He is the youngest campaigner in Canada at 24.

For a while there was competition for the title between Coutts and his Liberal team-mate Vincent Kelly in Ontario, who is running in Carleton Place at 25.

When most candidates are in their late thirties and many at retirement age when men can take time to start learning politics, Coutts and Kelly are unusual, having together stacked up 18 years' experience in politics, with Coutts again claiming the lead, having 10 years work directly in the political field behind him.

Meeting dates include Claresholm, May 28; Turner Valley, May 29; Okotoks, June 1; Staveley, June 4; Glenwoodville, June 5; Midnapore, June 6; Coleman, June 11; Blairmore, June 12; Bellevue, June 13; Enchant, June 14.

## Natural Gas Negotiations Progressing

Coleman council met this week when it was reported that council were still awaiting approval for the gas pipeline from the Board of Public Utility Commissioners.

As soon as approval is received a vote will be held three weeks later.

The debenture issue orders are being taken at the town hall in blocks \$100.00, \$500.00 and \$1,000.00 and interest will not exceed seven per cent.

The Banister Construction Company officials were here and contracts are to be drawn up in the near future for supplying Coleman with natural gas service.

Banister Construction advised the town that it would take approximately eight weeks to install the system and provide service to Coleman residents. A canvass of the town is to be made in the near future to sign up persons wishing the gas service.

The millrate in town was set at 47 mills which is two mills higher than last year. This rate will net the town 42.3 mills after discounts.

Approval was given by council for the construction of a new Esso Service Station on the south side of the number three highway at the east entrance to the town.

Work is now underway on the new busshed.

Reports indicated that Shannon and Cunningham of Taber who are doing the sidewalk construction in town will have this year's program completed within the next three weeks.

Council approved commencement of a dandelion and fly spraying program in the town in an attempt to rid the town of the two pests.

It was reported that the four homes on "Tornado Flats" at Sentinel will be moved to the new housing development site in Coleman next week. Council advised that there were still a number of choice lots available in this development area.

The water analysis report was received and showed that there was no unfavorable contamination of water in town.

## Hose Coupling Competitions Here Monday, July 2

Coleman Volunteer Fire Brigade have commenced plans this week for the annual Hose Coupling competitions.

Fire Chief Henry Zak has announced that the affair will be held on July 2nd on the main school grounds. The affair will start off with a parade of firemen from the competing teams at 12 noon after which the competitions will get underway.

The firemen are also planning to put on an exhibition of fire fighting techniques and a display of equipment.

A refreshment booth is to be set up on the grounds, and the brigade will hold a tag day to help defray expenses of the day's affair. A banquet and dance is to be held in the evening.

### Driver, Walker Responsible For Highway Safety

"It's NOT the 'other fellow'; it's YOU!" declared C. E. Carson, general chairman of the Canadian Highway Safety Council.

Mr. Carson was commenting on responsibility for safety on the highway, and pinned that responsibility directly on the individual motorist and pedestrian.

Referring to Council's current (through May) spring campaign for checking vehicles for flaws and mechanical defects, Mr. Carson said: "If every motorist accepted the responsibility that is his and his alone, to make certain his vehicle is in top operating condition, traffic accidents, due to mechanical failure, would be eliminated."

With summer driving all but here, Council is urging car owners to have their vehicles thoroughly checked. At the same time, Council warns, drivers should check their own attitudes and abilities behind the wheel.

"Drive as you know you should," advises CHSC, "and never try to educate other drivers on the road. Safe driving is your responsibility. Live up to it."

### Kill The Insects . . . Save Yourself

Summer has arrived and people enjoy outdoor living.

However, the warmer weather brings out many insects which are not only destructive and a nuisance but some also carry disease.

To control these insects many chemicals are being used and practically all these substances are not only deadly for insects but also are poisonous for man.

Therefore, these substances must be handled with great care. When using any insecticides, fungicides

or herbicides, the following restrictions should be taken:

1. Read the label on container very carefully and use only as recommended by the manufacturer.
2. Be careful to avoid contaminating food, dishes, glasses and clothing.
3. When using powerful insecticides, e.g., Dieldrin, TEPP, etc., protective clothing must be worn and especially waterproof gloves. If used indoors or over long periods a mask should be worn.
4. Avoid getting hands, arms, and face contaminated while handling insecticides.
5. Always wash your hands, arms and face with lots of water when finished applying insecticides.
6. Always keep poisons away from children.

Weed killers which are used very extensively now-a-days are usually very poisonous, and if applied to lawns, make sure babies and children do not play and roll in the grass for a few days. Children have been known to take grass in their mouths, chew it and even eat it.

The signs and symptoms of poisoning from these chemicals are often very similar to common illnesses. They cause abdominal pain and gastric disturbances, headache, dizziness, diarrhoea, dark-colored urine and jaundice. Therefore, if any persons feel sick and has been using these toxic substances, they should make sure to inform their family physician of this fact.

With proper care and precaution we should all enjoy a lovely, insect-free summer-time, without marring it by careless handling of insecticides, fungicides and herbicides.

### Red Cross News

On May 21st the following articles were sent to Calgary headquarters:

80 diapers, 20 pairs of children's panties, 20 vests, 7 quilts.  
Many thanks to all the ladies who helped in any way.

Sewing rooms will be closed for the summer months.

### Letter to the Editor

Coleman, Alberta,  
June 1, 1962.

To Whom It May Concern:  
Re: Coleman Bombers Soccer Team

It has come to our attention that there is some controversy over who is sponsoring the team.

At present we have no sponsor and are struggling to maintain the team financially. We would appreciate any person or organization taking over this responsibility, if they so desire.

We have applied to different organizations for donations to help us pay for pants, socks, sweaters, pads, etc., and so far have had good support from the merchants to whom we would like to extend many thanks.

The sweaters for the entire team were bought by Jack Ostash of the Coleman Hotel. Many thanks, Jack—or else the team may have been

playing in anything from underwear to sport shirts.

One particular organization has stated they could not donate to us as the team was already sponsored by the Coleman Hotel.

It is quite a different proposition to donate sweaters for a team and to completely sponsor a team financially. We hope this letter has cleared up any misunderstanding in this respect.

Hey, Folks! How about turning out to see the games. We think you will enjoy them and we need your support.

Yours truly,

JOE TROTZ, secretary,  
Coleman Bombers.

### Water Safety Around The Home

1. Children must be watched constantly if there are creeks, riv-

ers or ponds, no matter how small, near the home. A ditch flooded after a storm can be a death trap.

2. Cover open wells. Attention to this constant danger will prevent tragedy.

3. Make sure deep excavations in your neighborhood are fenced, and small children supervised at play. Anticipate and prevent that one fatal step.

4. Garden ponds and plastic wading pools should be supervised while children are at play . . . and closed off when such supervision is absent. REMEMBER — children have drowned in as little as two or three inches of water.

5. Around the home teach your children to avoid these dangers

Remember the good ol' days—when charity was a virtue, not an industry?

## This is the M A N

--Youth Experience Sincerity

Jim Coutts, Liberal 8898 . . .

"... Devaluation took 8 per cent out of the incomes of pensioners, people on fixed incomes, wage earners—Devaluation added 8 per cent to many machines the farmer buys and the fruit and vegetables the housewife feeds her family—Devaluation adds to the property owners' municipal taxes when his council repays loans or interest on borrowings—Devaluation is the result of loss of confidence in Canada's economy—Liberals will restore confidence at home and abroad."

# YOU CAN SAVE A LIFE!

... learn how easy it is to use the  
**DIRECT METHOD OF ARTIFICIAL RESPIRATION**

If victim is not breathing begin artificial respiration at once. Wipe out quickly any foreign matter visible in the mouth, using your fingers or a cloth wrapped around your fingers.

**2** Tilt victim's head back. Pull or push the jaw into a jutting-out position. If the mouth (or jaw) will not open, seal the mouth and blow air into the victim's nose.

If victim is a small child, place your mouth tightly over his mouth and nose and blow gently into his lungs about 20 times a minute. If victim is an adult, cover the mouth with your mouth, pinch his nostrils shut, and blow vigorously about 12 times a minute.

**4** If unable to get air into lungs of victim, and if head and jaw positions are correct, suspect foreign matter in throat. To remove it, suspend a small child momentarily by the ankles or place child in a jack-knife position with arm under his stomach. Slap him sharply between shoulder blades.

If victim is an adult lie him on the ground in a jack-knife position and slap him sharply between the shoulder blades.

## WATER SAFETY

- After a meal, wait 2 hours before swimming — a sensible precaution against cramps.
- Swim parallel to the shore, so that you can always see it — this way, you're never too far from safety.
- Never swim alone and preferably only where there are life-guards or people trained in life-saving.
- Enter strange water feet first.
- Condition your body to the water by splashing your ankles, wrist, neck and chest.
- Parents: always supervise children in or near water. Even that backyard plastic pool should be emptied when not supervised.

## BOATING SAFETY

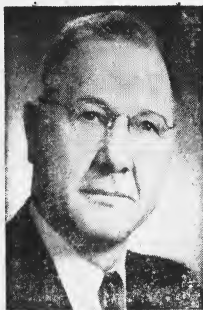

- A boat pulling a skier must have a crew of two — one to drive, one to watch the skier.
- Always remain seated in a small boat or canoe.
- When using a row-boat to rescue a swimmer in trouble, bring him aboard over the stern. In a canoe, lift him in over the side, in the mid-section.
- Never overload your boat. Make sure everyone in it wears an approved life jacket.
- If your boat overturns, remain with it. Hold onto the gunwales and wait for help.

## Social Security

The Diefenbaker Government announced in Parliament last session that Canada is to have a Contributory Social Security System. A Constitutional Amendment is to be obtained from the British Parliament so as to permit the inclusion of Survivor and Disability features. Canada is to have the most up-to-date and advanced Contributory Social Security System in the World, and NOT a government dole.

1. Payment will start at age 65, with a lesser annuity at age 62 if desired.
2. Disability Insurance.
3. Survivor Benefits for Widows and Children.
4. Full Portability of Pensions. This will enable employees to change jobs and take with them any pension already built up. No longer will the person in middle life be turned down because of the pension plan.
5. There will be no "Means Test."

## Skin Divers Probe Crows Nest Lake In Search For Lost Whisky

Two Calgary frogmen, Don McPhee and Tom Ward, adventurously visited the murky depths of Crows Nest Lake recently, in hopes of finding the legendary lost "train-load of booze" that supposedly is lying in cold storage at the bottom of the lake.

Icy cold weather, accompanied by rain, with dark, cloudy skies hampered the search, and after a half hour of probing into 50 foot depths the men postponed the search until July, when they hope to re-visit the Pass with nine members of the Calgary "Mako" Shark and Skin Divers Club.

Mr. McPhee is manager of the Dominion Group Insurance Company of Calgary, and is also on the executive of the Alberta Skin Divers Council. He is married and has two children. Mr. Ward, also married, with three children, is also an insurance company manager.

The couple recently visited the Pass with the hope of possibly locating some evidence of the sunken train which is supposed to have gone off the tracks just west of the Sentinel power plant in the early 1900's.

Various reports would indicate that the train-load of goods comprised several box cars of whisky besides other merchandise.

No confirmation of such a train mishap is recorded in this area, although some old-timers do often speak of such an event.

Despite cold, early spring weather and adverse conditions the two skin divers donned their outfits and made a half-hour survey of the bottom of the lake on the north side, just west of the power house. The men went as deep as 50 feet, but due to dark conditions of the sky and murky spring runoff water, the search was soon given up.

The men report that the bottom of the lake is covered with a heavy accumulation of large boulders, heavy timber and a great accumulation of quarter-inch thick wire. The divers also report that the lake fell off into what seemed to be a cliff and due to the poor visibility which forced the two men to hold hands under-water, the search was put off until this summer when better conditions prevail. The men also report that the large rocks at the bottom of the lake at the 50-foot depth are coated and covered with a quarter-inch thick covering of black silt, which appeared to be coal dust. When the rocks were touched by the men's hands clouds of the dust would spread in the water, making visibility nil. An accumulation of dust, one-quarter of an inch thick on rocks would indicate a heavier covering on the lake bottom.

The men report that a fall-off in the lake some 80 feet off the shore appears to be a cliff. This additional depth over the 50 feet can be confirmed by a type of sonar depth sounding that was made last year by gas companies in the area who estimated the depth of the lake at this particular point to be about 90 feet.

Mr. McPhee and Mr. Ward are two of the original members of the crew that, about one year ago, found the submerged train near Balfour, B.C. This train jumped the track in 1927, and the divers found the five box cars at the bottom of the lake in some 135 feet of water.

Four of the box cars were smashed and a fifth was intact and the divers were unable to open the doors on the box car to check the interior.

Search for this train at Balfour was the result of local legends, and although many thought that such an incident had never happened, Mr. McPhee reports that an old-timer of the area claimed he had seen the wreck and he brought the divers to the exact spot where he had seen the train go over.

A search of the lake floor soon disclosed that the old-timer was right. After the story of the find appeared in the papers a CPR widow phoned the divers and advised them that she knew exactly where the train went over. The divers plan on revisiting Balfour with a view to trying to locate the train's engine.

Legends of the train in the Crows Nest Lake reached the adventurous ears of the skin divers in Calgary about two years ago, and the men have been planning for some time.

Just recently a number of cabins and buildings were found by the divers in the Banff - Lake Louise district at the bottom of a lake. Reports showed that the buildings had belonged to a construction outfit building a dam in the district.

Mr. McPhee has just returned from a trip to Mexico, where while on a five-day ocean cruise in the Gulf of Mexico, he shot 1600 feet of colored 16mm movie film of underwater life. The film is to be shown on channel four in Calgary and possibly on the Lethbridge station. Mr. McPhee also took 160 35mm colored underwater slides of underwater life.

Mr. McPhee plans to visit Puget Sound and the Queen Charlotte Islands on a holiday this fall and while there intends to do a considerable amount of skin diving.

## Tempting cheese dish

"Apple pie without the cheese, is like the kiss without the squeeze." There are few of us who would disagree with this age-old saying. Many would go even further and mention the tasty goodness of blue velvied cheese with a juicy pear pie.

Cheese may be worked into any meal of the day. At breakfast cheese is great in muffins, tea biscuits, scrambled eggs or omelets. Let cheese top the soup, add protein to the diet as a sandwich filling, glorify a salad or play the dessert role with crackers and fruit at lunch time. Feature cheese in the appetizer, main dish, salad or dessert, or let it be remembered as the last morsel of flavor at the end of a perfect dinner.

Care should be taken in the cooking and storage of "Canadian Cheddar Cheese". High heat, and long cooking time toughens the cheese, makes it stringy and curdles cheese-egg-milk mixtures.

It needs just enough heat to blend it with other ingredients. Keep cheese tightly covered in its original wrapper, waxed paper, or in a covered jar... keep it covered and cool.

Try this taste tantalizing cheese dish on your family soon:

**Cheese Noodle Bake**  
(makes 5 to 6 servings)  
2 cups noodles, cooked  
2½ tablespoons butter  
2 tablespoons flour  
2 cups milk  
half teaspoon salt  
few grains pepper  
1 teaspoon Worcestershire sauce  
2 cups grated Canadian cheddar cheese

1 cup diced green pepper  
1 (7½ oz.) can chunk style tuna  
half cup bread crumbs or crushed cereal

1—put hot, drained noodles into buttered 3 quart size casserole.

2—In saucepan melt butter; blend in flour. Add milk and cook, stirring until smooth and thickened. Add salt, pepper, Worcestershire sauce and 1½ cups cheese.

3—Scatter tuna chunks, green pepper and olives over noodles.

4—pour cheese sauce over. Sprinkle with bread crumbs or cereal, for 40 minutes or until browned combined with remaining cheese.

5—Bake in a moderate oven (375) and bubbling.

## Youth

Born at High River, son of Mr. and Mrs. E.E. Coutts of Nanton. Educated at Nanton and at University of Alberta where he took Bachelor of Arts and Law degrees. Articled in Calgary. Not married.

## Experience

Worked in politics at early age at the ground level filling envelopes for candidates, putting up posters. At 14 joined the Liberals. At 15 became office manager and then campaign manager for the 1953 Macleod Liberal candidate. At University, built up the Liberal campus party from low on the totem pole to the top place which it has occupied in past three annual elections. Elected national president of Canadian Young Liberals against older candidate with much prestige. Made countrywide tour of Canada. Member of conference at Kingston on world education in 1960 and conference on Canadian-American relations in 1958. Speaks French adequately. Well known for his grassroots work in Macleod constituency and for short, punchy speeches.

## Sincerity

Decided that politics would be his field even before joining Liberal party. At university specialized in political science, political economics and constitutional history, besides law. Mature thinker, so much so that for several years has been member of policy committees or has chaired them at Liberal national gatherings. Determined that long term program will be used, no piecemeal panic legislation. A sense of mission and a tremendous supply of energy to back it up.

Published by Macleod Federal Liberal Association.

## Does The 92½¢ Dollar Affect You?

**PATTERSON, Ernie X**

Because of imports, it means increased prices for: machinery and parts, fruit, vegetables, meat, canned goods, appliances and clothing, e.g.—meat has risen in cost .5 to .8c a lb.

## Why Was The Dollar Devalued?

Continued deficit financing (over three billions of dollars of new debt since 1968) and a lagging economy has caused a lack of faith in our currency.

### Western Board Music Exams In The Pass

E. Thompson, secretary of the Western Board of Music has announced this week that the June practical examinations of the Western Board of Music, University of Alberta, will be held in Blairmore on June 11, 12 and 13 and then in Pincher Creek on June 14 and 15.

The examiner this year will be Mr. Jean-Pierre Vetter of Edmonton, who is a leading pianist and teacher. He was born in Switzerland and studied in Lausanne, Florence and Paris where he was assistant teacher to Pierre Kostantoff for three years.

Mr. Vetter is a frequent soloist over the CBC and in 1961 was guest soloist with the Zurich Symphony Orchestra and also presented concerts in Brussels and Lausanne.

### Patterson Will Work For Willow Creek Dam

The Social Credit candidate for Macleod riding, Ernie Patterson, pledged that he will work for the construction of a dam on Willow Creek.

In the second plank of his platform which was released on Monday, May 28, Mr. Patterson states that the construction of a dam on Willow Creek is very necessary if the towns of Claresholm and Granum are to have a guaranteed water supply.

He would like to see the dam constructed on the Chain Lakes site because this can be done without incurring the costs of moving buildings.

This dam would not only provide water storage, but also provide a recreation area for the residents of Nanton, Parkland, Staveley, Claresholm and Granum.

Mr. Patterson states that he would like to see the Willow Creek dam and the Livingstone Gap dam built under PFRA because the new ARDA program is still pretty much in the planning stage.

Only \$7,000,000 have been allotted to Alberta projects for the next

five years under the ARDA program. Earlier, Mr. Patterson said that he would like to see an immediate start on the Livingstone Gap Dam.

### Services Held For Thomas Yacubec

Requiem High Mass was celebrated from the Holy Ghost Catholic Church on Monday, May 29th by Rev. Father Denis Fleming for Thomas Yacubec, a long-time resident of Coleman.

Interment was made in the Catholic cemetery.

Mr. Yacubec passed away in an Edmonton hospital on May 22nd, following a lengthy illness. He was 79 years of age, being born in Poland on September 14, 1882.

Coming to Canada 40 years ago he settled in Coleman where he worked in the Coleman mines until his retirement.

He was a member of the Coleman Local of the UMW and of the Catholic Faith.

He was predeceased by his wife in Poland and by a daughter in Coleman in 1934.

### Coleman Graduates Entertained

Ten students of the 16 graduates of the Coleman high school, accompanied by their mothers, were the guests of the Coleman Home and School Association at a tea and lunch held at the home of Mrs. Roy Upton last week.

A social afternoon was enjoyed with lunch being served by the Ladies of the Home and School.

## VIEW OF CARNATION FARMS, WASHINGTON

### LAST CHANCE

The Alberta Milkers' Tour, organized by the investor-owned electric utilities of Alberta, has received applications from over 35 people who are interested in taking the Tour.

The Tour, from June 16 to 16, will highlight all the various phases of dairying and will provide ample opportunities for discussions and questions on dairy operations.

One of the many points to be visited will be Carnation Farms. The participants will be shown rations, breed records and a glimpse of what the future holds for dairying. At other points on the Tour prominent speakers will discuss problems and the solutions they have found. New types of housing, new feeds and methods of feeding and dairy herd improvement programs will be open for discussion.

All those who wish to take part

in the Tour are urged to submit their applications. Accommodation can only be reserved for the number of people whose applications have been received by June 15.

For further information about the Milkers' Tour please contact J. E. Bagshaw, Canadian Utilities Limited, 1040 - 104th St., Edmonton, or Alex L. Metcalfe, Assistant Director of Industrial Development, Calgary Power Ltd., P.O. box 190, Calgary.

Miss Arlene Marconi, attending university at Edmonton, has returned and is spending the summer months with her parents, Mr. and Mrs. J. Marconi, jr.

### Sports Association Hold Annual Meeting

George Jenkins, well known in sport circles, tendered his resignation as president of the Coleman Sports Association, after having served in this capacity for the past 11 years.

Mr. Jenkins was the only original member of the Association that

was formed in 1942, and on his resignation, that was accepted with regret, he was given a hearty vote of thanks for his untiring efforts during his long service with the Association.

Despite the fact that only a small number were on hand for the annual meeting, secretary-treasurer Dave Feregotti reported that the Association had enjoyed a very successful year at the arena as the auditor's report showed that the season had been completed with a balance of \$1100 left over after operational costs.

This report in the black was credited to having rented the arena to Bannister during last summer and to the excellent attendance at the Big Six League hockey games.

The Association plans to do some summer work at the arena which will include putting on a new roof, and doing some interior painting in dressing rooms, waiting rooms and other parts of the arena.

A new slate of officers is to be elected at a future meeting.
